DHCS ECM and Community Supports Implementation Data	**10**
Managed Care Plan Updates	**10**
Resources, Upcoming Events, and Closing	**5**
Optional Office Hours	**45**

2024 Aim Statement and Drivers

The Collaborative will increase the number of members referred to ECM and Community Supports, and the number of those successfully enrolled in and utilizing services.

- Build education and awareness of CalAIM among members, providers, and community partners
- Strengthen the provider network to serve all Populations of Focus
- Increase ECM & Community Supports referrals and care coordination among providers

Community Referrals: Needs and Opportunities

The Need

- Increase the proportion of ECM and Community Supports referrals that come from the community

Current Challenge

- Current referral pathways rely on the Member Information File (MIF) and outreach to the member from CBOs, yielding low referral rates

What We Know

- Those with existing member relationships are best positioned to identify eligible members and connect them with services
- When members are identified as potentially eligible, current referral processes are not optimized

Shared Goal

- Robust and streamlined community referral pathways to enroll more members who can benefit from ECM and Community Supports

Collaborative Role

- DHCS and the CalAIM PATH Collaboratives can identify promising practices to build community referral pathways
